Key Insights

- A total of **636 IPL matches** were analyzed across **10 seasons (2008–2017)**.
- 2013** recorded the highest number of matches, reflecting the tournament's expansion during that period.
- Teams winning the toss chose to **field first (57.1%)** more often than batting first, indicating a preference for chasing.
- 98.4%** of matches ended with a normal result, while ties and no-result matches were rare.
- Mumbai** hosted the highest number of IPL matches, followed by **Bangalore** and **Kolkata**.
- The tournament maintained a relatively consistent number of matches each season, with only minor year-to-year variation.

Lucky Stadium for Mumbai Indians

Toss winning Teams

Key Insights

- Mumbai Indians** achieved the highest number of match wins, demonstrating consistent performance across seasons.
- Chennai Super Kings** and **Kolkata Knight Riders** were among the other top-performing franchises.
- Teams winning the toss preferred to **field first**, indicating a strategic advantage in chasing targets.
- Mumbai Indians** won the toss more frequently than other teams during the selected period.
- Wankhede Stadium** hosted the highest number of Mumbai Indians' victories, suggesting a strong home-ground advantage.
- IPL seasons from **2011 to 2013** recorded comparatively higher numbers of matches than other seasons.
